#### COST-EFFECTIVE

Our program will reduce training costs and increase efficiency by allowing you to train new hires independently of each other, at a time that's most convenient for you.

To keep your training program effortless in every way, we've made the pricing simple too. The annual fee structure is based on the number of employees in your company.

\* This program does not provide the OSHA required on-site training necessary for employees who will be involved with forklifts, hoists, respiratory, or other facility specific work exposures.
